As president of the Graduate Student Union (GSU), I am delighted you are here and want to encourage you to take advantage of the many opportunities the GSU offers. The GSU represents all of Notre Dame’s graduate students and works to improve the quality of life for students in the classroom, laboratory, or in the library, either through offering conference travel grants, opportunities to present their research at our annual Research Symposium, or hosting social events that foster relationships among fellow graduate students. We advocate for your needs and interests directly to the University Administration, and welcome any suggestions or topics for discussion as we strive to meet the needs of students in all disciplines.

The GSU executive team is comprised of the president and co-vice presidents, committees (including academic affairs, external affairs and electronic resources, health care, orientation, publicity and procedures, quality of life, and social events), and department representatives. As with any association, the GSU’s quality and effectiveness is only as good as the participation of its members, so I strongly encourage you to be actively involved in the GSU during the upcoming year and throughout your career at Notre Dame. Our meetings are open to all graduate students and are usually held the third Thursday of every month during the academic year at 6:30pm in the Notre Dame Room, LaFortune Student Center.

We have spent a lot of time crafting this handbook with the intention of introducing you to the campus and surrounding community. More detailed information about each specific department can be found on the web. As a graduate student at one of the finest research institutions in the country you will contribute immensely to the educational advancement of the community. And while this will be one of the most challenging times in your life, it will also be one of the most rewarding times. Be sure to take advantage of the abundant resources offered!

Be on the lookout for our weekly newsletter email for news, events, and additional support! I welcome all forms of communication, so if you are in need of assistance please contact me.

Thanks,
Zack Terranova, GSU President

HOW THE GSU SERVES YOU

Founded in 1969, the Graduate Student Union (GSU) is a student organization which represents all graduate students of the four divisions of the Graduate School (Engineering, Humanities, Science and Social Sciences) and the School of Architecture. The GSU promotes excellence in graduate education, and strives to meet the needs of graduate students in all aspects of student life.

Student Life
Provides access for graduate students in the Student Union Board DVD rental program

Successfully pushed for additional campus graduate student housing

We were instrumental in the creation of the family center in the housing facility for married students

Worked toward obtaining affordable on-campus childcare

Academic Support
Organized the first Graduate Student Research Symposium. The annual event served to showcase graduate research to members of the Notre Dame Graduate Advisory Council as well as the general public

Created a “graduate students only” computer cluster and study spaces (with financial support from the Graduate School) located in Hesburgh Library

Continue to obtain increases in stipends for teaching assistants

Health Services
Successfully lobbied for subsidized health insurance effective 2004. As of 2013, the subsidy is at 80% of the total premium.

In conjunction with the University Committee for Women Faculty and Students (UCWFS) and General Counsel’s office, the GSU helped:

- put in place a medical separation policy for graduate students effective AY 05-06
- provide graduate students with access to lactation spaces on campus

In coming to Notre Dame for your graduate training, you have selected an institution with a superb faculty, top graduate programs, and a commitment to research, teaching and service, all of which combine to offer you an integrated and ever-widening set of resources that will contribute to your formation as a researcher.

At the center is you. The transition to graduate school is marked by a number of personal transformations: from being a consumer of information to becoming the creator of new knowledge; from being responsive to assignments and deadlines set by instructors to being proactive about setting up your own goals and timeline for progressing in your research; from learning from others to becoming the expert in your field and fostering the learning in others.

Surrounding you are people and resources, positioned to help you along your journey to becoming a scholar. Your faculty mentor serves as your guide into your chosen field, leading you through the critical readings and procedures for conducting research in your field, mentoring your professional development, and helping you to create a professional network. You will work closely with your mentor throughout your training, and the strongest mentoring relationships include open communication and clear expectations.

Your peers, both within and outside your programs, offer you a scholarly and social network that will be vital to your holistic development as a scholar. Take the time to reach out and meet new people, talk about your research, learn about what others are doing. Collectively, you constitute the next generation of scholars.

Your program, department and college offer you another set of resources that support your mastering of key milestones in your training, and your development towards independent thinking. Get to know your director of graduate studies and your department chair and dean who are all wonderful role models and are committed to your success.

Finally, the Graduate School offers a strong set of programs in professional development to assist you in mastering transferrable skills which augment your training and will contribute to your success launching your career, and in student life assuring your scholarly development is balanced with your social, physical and spiritual needs.

We are excited to have you on campus, and I hope to meet you and learn about your research. Please don’t hesitate to drop by and say hello.

It is with great pleasure and enthusiasm that I welcome you to the University of Notre Dame. I am thrilled that you have chosen this place to continue your studies and advance understanding of your chosen specialty through your research and inquiry.

Notre Dame is a place where matters of faith are addressed with respect and where the wisdom of religious tradition sheds new light upon the most pressing concerns of our time. It is a university that strives to cultivate in its students both technical proficiency and an ethical, moral and spiritual integrity that lasts a lifetime.

As a graduate student, I hope you will find your days here a time of personal growth, intellectual challenge, and professional exploration. I encourage you to be an active member of our community and seek the academic, social, recreational and spiritual opportunities which abound.

The resources offered by the University in support of your work are plentiful. In particular, several programs offered by the Graduate School and the Graduate Student Union are offered to assist you in making a smooth and rapid transition to the University, and I urge you to take full advantage of these offerings.

Again, I am glad to welcome you to Notre Dame. I wish you great success in your intellectual pursuits, and I look forward to seeing you sometime in the near future.

The Office of Student Accounts monitors students’ accounts for accuracy and generates the monthly student account statements. Student Accounts also acts as a clearinghouse for issuing student charges and credits, in addition to processing payments and refunds.

**BASICS**
Students can access their student account statements online through IRISHPAY.
- Log in to insideND at: inside.nd.edu
- Click on the “Student Academic” tab
- Go to the “Student Financial Services” channel and click on “IRISHPAY”
Students will be notified via email when their monthly statement is available.

**BILLING DATES**
The fall semester statement will be issued July 19th; the spring statement will be issued December 6th. These statements list charges for tuition, fees, and room and board. Additional statements for personal charges, including bookstore, health services, laundry, etc., are issued on a monthly basis.

**PAYROLL DEDUCTIONS**
Students may sign up in the Office of Student Accounts to have a deduction from their payroll/stipend applied to the balance of their account. It is only available if the deduction will reduce the balance to zero at the end of the academic year.

**MONTHLY PAYMENT PLAN**
The tuition payment plan administered by Sallie Mae allows students to make payments over a period of 9 or 10 months. Online enrollment is found on the Student Accounts website.

**WHAT METHODS OF PAYMENT ARE ACCEPTED?**
eCheck (via IRISHPAY), personal check, cashier’s check, money order, or wire transfer. Credit cards are not accepted.

The Notre Dame Security Police, located in Hammes Mowbray Hall, is fully authorized as a police agency by the State of Indiana. NDSP employs both sworn police officers and non-sworn security officers who patrol campus and respond to emergencies. Additional staff members work as security monitors or in other support positions in the department. Notre Dame police officers complete state-mandated training requirements established for law enforcement officers and have the same legal authority as any other police officer in Indiana.

Notre Dame Security Police staff frequently work with city, county, state and federal law enforcement authorities. Agencies cooperate whenever possible on investigations and crime prevention programs to provide the best possible police services to our campus and local communities. Notre Dame Security Police staff offer an array of other services for the community. When you don’t know who to call, feel free to contact them for assistance.
NOTRE DAME HAS A WEALTH OF RESOURCES TO ENSURE YOU HAVE THE BEST GRADUATE EDUCATION IN THE COUNTRY. THE FOLLOWING PAGES DETAIL SOME OF THE MANY SERVICES PROVIDED BY OUR UNIVERSITY.

“PREPARE YOUR WORK OUTSIDE; GET EVERYTHING READY FOR YOURSELF IN THE FIELD, AND AFTER THAT BUILD YOUR HOUSE.”

ENJOY NOTRE DAME
University Health Services (UHS) provides treatment of illness and injury to all currently enrolled students. UHS is staffed by physicians and registered nurses 24/7 during the academic year. Services include a walk-in clinic, pharmacy, allergy injections, travel consultations, vaccinations, laboratory tests, x-rays and physical therapy. If you are seriously ill, you may be admitted to our inpatient observation unit upon orders from a University physician.

HEALTH INSURANCE
Health insurance is required for all graduate students attending Notre Dame. As an enrolled graduate student, you are automatically enrolled in the University’s student health insurance plan. If you decide not to obtain coverage through this plan, you must provide proof of enrollment in a comparable insurance plan by September 15, 2013. Waiver applications are done electronically through: aetnastudenthealth.com. You will receive multiple emails from UHS regarding the insurance plan prior to the waiver deadline. UHS will provide you a link in the email to apply for the waiver.

The Notre Dame student health insurance plan is underwritten by Aetna Life Insurance Company. The coverage year runs from August 15, 2013, to August 14, 2014. Early in the fall semester, each student will receive a booklet detailing the insurance plan along with their health insurance ID card. You can also find a copy of the brochure and pamphlet at: uhs.nd.edu/graduate-student-life/health

DEDUCTIBLE
This is the amount that insured students are responsible for at hospitals and other facilities other than health services. The deductible is a flat $500 per person, not per injury/illness. Services rendered at University Health services are 100% reimbursed, no cost to the student except prescription co-pays and over the counter items. Only students can access the health center but all others can access the pharmacy.

HOSPITAL & ER SERVICES
Both Memorial Hospital and Saint Joseph hospital are in the Aetna network and you can go to either facility.

HEALTH EDUCATION
Programs are coordinated by UHS Medical Outreach Services. Contact Ruthann Heberle at 574.631.8662.

DENTAL SAVINGS CARD
You may purchase an annual dental savings card for $25 which will pay for itself over two or more cleanings and check-ups per year.

EYE CARE
There is no cost for the Vision discount plan. It is already included in the premium package. It is a discount plan so charges to preferred providers are reduced.

PRESCRIPTIONS
For the best coverage, prescriptions must be filled at the University Health Center on campus. There are co-pays when you get your prescriptions filled at the UHS Pharmacy on campus. The co-pays are $5 (copay for generic), $25 (copay for brand-name) and $35 (copay for brand-name if generic available). Off campus, there is a yearly $100 prescription deductible. After the deductible has been satisfied, the coverage for prescriptions is as follows: $5 (generic prescription drug), $25 (preferred brand name prescription drug), no coverage for Non-Preferred brand name prescription drugs. Benefits for contraceptives are covered only when medically necessary. Allergy injections, serums and oral allergy medications for students are covered at University Health Services only. Immunizations for students at the Health Center are covered at 100%.

COUNSELING & MENTAL HEALTH
Treatment of mental health is covered the same as any other sickness. Students seeking mental health care are encouraged to visit the University Counseling Center (UCC) located in Saint Liam Hall. A referral from the UCC is needed for outside care.

PREVENTATIVE CARE
Each student is authorized one wellness physical or gynecological visit per coverage year. No referral is needed to visit an off-campus doctor for this purpose.

REFERRALS
A University Health Services referral is needed for most care done outside of the University Health Center (UHC). The exceptions are medical emergencies, maternity, routine exams, mammograms, chiropractic care, dental care and when the UHC is closed or the student is more than 25 miles from campus. Referrals are needed for students only, and not for dependents.

NON-UNIVERSITY PROVIDERS
To see an off-campus doctor (within a 25 mile radius of campus), students must first receive a referral from the University Health Center (except for Obstetrics and Gynecology care, Mammograms, Wellness physicals, Chiropractors, and dentists).

“OUT OF NETWORK” PROVIDERS
Lower benefits and higher out-of-pocket expenses are incurred when a student seeks medical care outside of the network. The maximum out-of-pocket expense for out of network care is $2500 for the coverage year.
The UCC is staffed with licensed psychologists and social workers who provide confidential individual and group counseling. The center offers individual, group, couples, and crisis counseling services. We also have a psychiatrist who is at the center two days a week for medication consults and a nutritionist. Referrals are provided for students who plan to work with mental health professionals in the community and want to use their University sponsored health insurance. Fees for services are nominal, though if they pose a financial hardship arrangements will be made so that services remain available. Urgent Care, Referral Services, Warm Line and the Inner Resources services can be accessed through contact with the UCC.

**GRADUATE THERAPY SUPPORT GROUP**
This group is designed for grad students who want more self-understanding and greater confidence. It is also for those who have experienced relationship difficulties or loss and are looking for support and strategies for coping and personal growth, and time/stress management. Consider joining a confidential counseling group with other graduate students. Contact Len Hickman, Ph.D. 574.631.7336

**WARM LINE CONSULTATION**
Warm Line is a non-emergency help line for faculty and teaching assistants who have concerns about their students’ mental health. Call the University Counseling Center at 574.631.7336 and ask for the Warm Line. This will put you in contact with the next available Warm Line therapist.

**EMERGENCY SERVICES**
Visit: ucc.nd.edu/emergency-services for a list of crisis services available.

**LET’S TALK**
Let’s Talk is brief consultation (15-20 minutes) and an opportunity for students who do not desire formal therapy but would like a chance to talk face to face with an experienced counselor. Let’s Talk is confidential, completely free and it is not in the Counseling Center. Just walk in because no appointments are necessary!

Find a Let’s Talk time and location on the UCC website. If those times do not work for you, feel free to contact the Let’s Talk Coordinator, Megan Brown, Ph.D. 574.631.7336

**INNER RESOURCES ROOM**
This room has resources for calming and focusing yourself. Students can also use a massage chair for relaxation and light box for treatment of Seasonal Affective Disorder.
WRITING CONSULTATIONS
The University Writing Center offers free, one-on-one consultations with writers from all disciplines, at any level of study, at any stage in the composing process. Graduate students can choose to work with an undergraduate or graduate consultant. Our consultants are prepared to work with graduate student writers on course papers, dissertation chapters, conference proposals and presentations, and publication drafts. Graduate students and faculty are welcome to make use of our “Read-Ahead Service” to get the most out of their consultations, sending in a draft of a larger piece of writing (like a dissertation chapter or book section) in advance of the consultation so that the consultant will have time to review the piece before the meeting.

DISSERTATION REVIEW
We also offer standing weekly appointments for students writing dissertations to get consistent feedback from an attentive reader throughout the dissertation process.

Of course, students are also welcome to make appointments to discuss ideas before beginning a draft or to bring in draft material at any stage of revision.

GRADUATE WORKSHOPS
Workshops are offered especially for graduate students on various writing topics during the academic year.
The Hesburgh Libraries is a diverse system featuring a main library which houses specialty libraries and eight branch libraries located throughout the Notre Dame campus.

In an effort to further its core mission of “connecting people to knowledge,” the Libraries offer a vast array of expertise, services, resources and spaces to ensure the academic success of the graduate student community. Whether through the expertise of subject librarians and specialty services or the access to various sources of knowledge, we continuously evolve to meet the ever-changing needs of Notre Dame students in the 21st century.

Most of the books, journals, manuscripts, and other library materials available on campus are housed in Hesburgh Library and its branches. The physical collection contains over 3.5 million volumes. In addition, the libraries have access to over 75,000 electronic journal titles, and more than 21,000 audio-visual items in support of Notre Dame’s teaching and research programs.

One-on-one and small group orientations are available upon request at any time throughout the year. Please see: library.nd.edu/instruction/workshops.shtml for details and registration for general orientations.

KEY SERVICES AND SPACES TAILORED TO GRADUATE STUDENTS

SUBJECT LIBRARIANS
More than 40 subject librarians provide invaluable expertise and support services for the teaching, research and scholarship initiatives of the University community. Services offered by Subject Librarians include research consultations, materials purchase requests, and library instruction. They are responsible for collection development and management in one or more subject areas, including selection, communication with subject department faculty, de-selection, and preservation. Research consultations and immediate library assistance can be found at: asklib.nd.edu.

RESEARCH CONSULTATIONS
Subject Librarians are also your liaison to specialty research services within the Hesburgh Libraries and throughout the campus community. Begin your graduate career at Notre Dame by initiating and building a relationship with your Subject Librarian as soon as possible. You can connect face-to-face, by email, phone or chat, and through: library.nd.edu/directory/subjects.

DOCUMENT DELIVERY
You can request books and articles from the Hesburgh Libraries’ collection as a graduate student. Books will be held for you at the library of your choice. Scanned articles from journals owned by the libraries are usually delivered to your desktop within 24 hours, Monday–Friday. When materials are not on the shelf, your request is automatically routed to interlibrary loan.

INTERLIBRARY LOAN
Request material from other area libraries. Turnaround time is usually less than one week for physical items, and within a day for digital or scanned material. Please note that renewals and due dates operate differently depending on the outside library.

PROFESSIONAL DEVELOPMENT WORKSHOPS
The Libraries’ workshops further professional development in early stage and targeted mid and late stage areas of support. Core content includes orientation to the library, search overview for our catalog and databases, how to choose and use citation management software, and analyzing scholarly impact. Workshop content continues to evolve as research needs change. Consult with our online schedule via our library website: library.nd.edu/instruction/workshops.

DISSERTATION AND THESIS CAMPS
Dissertation and Thesis Research and Writing Camps provide five days of structured and supported time for you to focus on your research output. Camps are held during fall and spring midterm breaks and you will learn new research and writing techniques, apply time management tips, meet fellow graduate students, exchange ideas, and build your scholarly community.

WORDS OF WISDOM
The Libraries have collected “Words of Wisdom” from fellow graduate students, such as, “If only I had known sooner how much help I could get from the Libraries...my job as a grad student would have been much easier!” Visit: library.nd.edu/help/wordsofwisdom.shtml.

CENTER FOR DIGITAL SCHOLARSHIP
New in the fall of 2013, the Center for Digital Scholarship (CDS) is located in Hesburgh Library’s northeast corner on the 1st floor. CDS leverages state-of-the-art technologies, enabling students and faculty to explore new methodologies, analyze complex data and share research results in ways never before possible. The Center is nimble, capable of rapidly adopting new technologies as they emerge—transforming how teaching, research and scholarship are performed at Notre Dame.

As we establish partnerships campus-wide, the Center for Digital Scholarship serves as a “hub” that enhances the teaching, learning, and research process in every academic discipline. CDS empowers and equips our next generation of scientists and scholars to create new knowledge in a digital environment and make a more profound impact in the world.

CENTER EXPERTISE
The Center offers cross-disciplinary library expertise, including a Metadata Librarian, GIS Librarian and a Digital Initiatives Librarian. Subject Librarians are also important contributors to and conduits for the Center’s impact. To meet specialty needs, The Center has developed partnerships with various campus research providers, such as the Center for Research Computing, the Office of Research, and the Center for Creative Computing. Our structure ensures that areas of expertise will evolve to meet the changing demands of our University community for research and scholarship in the 21st century.

CENTER SERVICES
These services include: GIS (Geographic Information System) Consultation; Data Usage and Analysis; Text Mining and Analysis; Data Management Planning; Metadata Services; Digitization Services and Referral Services. Workshops and introductory topic sessions will be available on a regular and recurring basis, or by request.
The Institute for Scholarship in the Liberal Arts (ISLA) provides funding and services to graduate students in the College of Arts and Letters to enhance their development as scholars, researchers, and future faculty. Visit ISLA’s website for further information on eligibility, application procedures and program objectives.

ISLA offers two funding programs for research and creative endeavors and one interdisciplinary workshop.

**GRADUATE STUDENT RESEARCH AWARDS (GSRA)**
Grants of up to $2,500 for expenses related to thesis or dissertation research. Application deadlines: October 12; March 8

**AMERICAN DREAM GRADUATE SUMMER RESEARCH AWARDS**
Grants of up to $4,500 for graduate student summer research or creative projects on topics exploring the American Dream. Application deadline: April 8

**MELLON-ISLA INTERDISCIPLINARY GRADUATE WORKSHOPS**

The Center for Research Computing (CRC) at the University of Notre Dame is an innovative and multidisciplinary research environment that supports collaboration and facilitates discoveries in science and engineering, arts, humanities and social sciences, through advanced computation, data analysis, and other digital research tools. CRC enhances the University’s cyberinfrastructure providing support for interdisciplinary research and education as well as conducting computational research.

The Center is comprised of two complementary groups: High Performance Computing (HPC) and Cyberinfrastructure (CI). Together HPC and CI encompass a broad range of capabilities.

**CYBERINFRASTRUCTURE**
Cyberinfrastructure empowers faculty and industry partners to develop research environments which support advanced data and information processing services, including: acquisition, storage, management, integration, mining, and data visualization.

- **Visualization**: Produces ever more complex representations of data to amplify the process of understanding.
- **Computational Frameworks**: Retargets complex and tested techniques to solve new problems.
- **Geospatial Analysis Laboratory**: Develops advanced geographic information systems.
- **Interactive Collaborative Environments (ICE)**: Build secure web and computational resource portals.
- **Parallel and Data Intensive Applications**: Leverages the power of modern computer architectures.
- **VectorBase**: Centralized portal housing the genomic information for disease carrying agents.

**HIGH-PERFORMANCE COMPUTING**
The CRC operates a state of the art High Performance Computing (HPC) facility providing advanced computing support to researchers within Notre Dame, the local community, and industry.

HPC manages parallel supercomputers, clusters, grid networks and storage (around 10,000 cores total and 350TB storage) which provide exceptional levels of processing speed and power compared to desktop and monolithic mainframe systems. Researchers gain a cost-effective competitive advantage by using CRC’s expertise and computing power. At present, there are hundreds of researchers and students making use of the CRC facilities and services for calculation-intensive tasks.

We believe that graduate training is holistic. For this reason, we promote our students’ professional development so that when they assume their careers—whether in academia, the private sector, government, or non-governmental organizations—they do so fully prepared and with confidence. The mission of the Professional Development Program is to enhance the academic training of graduate students and postdoctoral scholars within the areas of research, teaching, career and ethics. To that end, we are offering events and workshops clustered around the core components of professional development: Research, Career Services, Teaching, and Ethics.

We wish you all the best in your graduate career! It will be one of the most exciting, demanding, and possibly stressful times in your life. From our perspective, the students who excel are those who take charge of their graduate career from their very first year through to completion. Keys to success are to allow enough time to take stock of your own strengths and weaknesses, commit yourself 100% to what you are studying, plan each step along the way, and stay focused on your long term goals. We, at the Career Center, are here to assist you in this process and look forward to working with you!

The Office of Graduate Student Career Services provides career-related support to Notre Dame graduate students through a variety of programs and services designed to support career development and expand one’s future professional opportunities.

ATHLETICS AND NOTRE DAME FOOTBALL
UND.COM • 574.631.7356 • TICKETS@ND.EDU

Notre Dame’s stellar athletic teams are a great way to spend time away from schoolwork. As you all know, football is big here at Notre Dame. VERY BIG. Here are a few tips on how to have the most fun and the least headaches during football season, and the other sports around campus.

FOOTBALL PARKING

WHITE FIELD
Game day parking is not allowed on campus (except of on-campus student residents parking in FOG or the Village), unless you have a special hanging tag. Those with parking passes can park in White Field, off of Juniper between Douglas and Cleveland for free. If you want to be parked next to a friend, try to meet up beforehand and drive to the field together.

NOTRE DAME PARAFANILIA
IRONWOOD DRIVE
The Bookstore has nice wears, but for less expensive Irish gear, head to the Clearance Center on Ironwood. They receive clothing and goods directly from the bookstore. JC Penney and even Meijer also sell “official” Notre Dame gear.

AVOID THE BOOKSTORE AT ALL COSTS ON GAME DAY.

FOOTBALL WEEKEND SCHEDULE
GAMEDAY.ND.EDU
Gameday.nd.edu has everything you need. You can find a pdf of “The Gridiron Guide,” a guide to all Irish activities for the weekend. Already have a ticket? Bring an unopened bottle of water to avoid the high prices of the concession stand.

TICKETS FOR FAMILY & FRIENDS
UND.COM
Tickets can be hard to come by if not a student. Depending on availability, individual general sale tickets ($70) are available for a limited time during late July. There’s also a Wait List lottery beginning each January via: footballtickets.nd.edu/public

GENERAL ADMISSION SPORTS
EAST END OF CAMPUS
One free student ticket for all sports (except Football and Men’s Basketball) is generally available beginning one hour prior to the start of the game. Be sure to support your favorite teams by wearing our university’s colors: blue and gold (and green)!!
